# StockFlow

StockFlow

- Es una Aplicación Web diseñada para el control de inventario de empresas pequeñas
- Permite añadir y eliminar productos del inventario
- Permite gentionar las facturas de los proveedores
- Tiene el apartado Historial en el que queda registado toda la actividad
- En el apartado Settings podemos modificar todos los ajustes como una app web tradicional

Inicio

- AL iniciar la app nos pedirá crear una cuenta de empresa en caso de que no tengamos una creada.

Inicio

- En caso de tener la cuenta creada le daremos al botón "Sign in to existing account" y nos redireccionará a otra página para acceder con nuestras credenciales

Página de inicio – Dashboard

- En la página de inicio tenemos un gráfico dinámico que nos muestra los tipos de productos que tenemos y su respectiva cantidad

- Tenemos el activity feed que es un resumen del historial

- También se encuentran unas tarjetas informativas que resumen los productos que están con stock bajo, el valor del inventario y los productos de diferentes tipos que tenemos.

- Nos permite añadir y eliminar productos

- Se muestran los productos que están fuera de stock

Inventory

- En este apartado tenemos todo el inventario de nuestra empresa
- Podemos añadir fotos a los productos, categorías, precios, unidades, fecha de entrada en el almacén y status.
- Cada producto tiene un SKU único que si no lo inserta el usuario se asigna aleatoriamente siempre (no puede ser idéntico a uno existente)
- Podemos filtrar los productos o buscarlos por nombre o SKU
- Podemos exportar la lista de productos en formato Excel o PDF
- Cada producto tiene un QR propio

Invoices

- Podemos crear y eliminar facturas
- Podemos verlas en la web en caso de que tengan un pdf o imagen adjunto.
- Se pueden descargar y editar una vez creadas
- Se pueden filtrar
- Al igual que los productos tienen un SKU único
- Se pueden buscar por nombre o SKU
- Se puede exportar una lista con todas las facturas en formato Excel o PDF

Frequently Asked Questions

Quick answers to common questions about managing your inventory, invoices, and account settings.

Can I add products using QR codes?

Yes. When editing a product, a QR code is automatically generated based on the SKU. You can download this QR to label your physical items. Scanning functionality to add items is coming in the next update.

How do I export my inventory?

How do I change the currency?

Is my data secure?

What does 'Low Stock' mean?

Frequently Asked Questions

Quick answers to common questions about managing your inventory, invoices, and account settings.

| Can I add products using QR codes? | ⌄ |

| How do I export my inventory? | ⌄ |

| How do I change the currency? | ⌄ |

| Is my data secure? | ⌄ |

| **What does 'Low Stock' mean?** | ⌃ |

The system automatically flags any item with less than 40 units as 'Low Stock'. This helps you prioritize reordering before running out completely.
